# Introduction

## Current institutional research topics

- Sustainability (financial or otherwise)
- Institutional governance and leadership
- Student access, retention, success
- Responsiveness and data transparency
- Meaningful data for institutional planning and integrative reporting

## Our contribution

- Management tool to organise qualification and programme data
- Tool to help ensure the transparency of qualification and programme data
- Tool to capture programme and module amendments to ensure continued responsiveness of offering
- Module outcomes builder

# Challenge and solution

## Challenge: how to manage the volume of amendments?

- Role of ICAS
- Paper-based and face-to-face meeting-dependent approval process not suitable

## HEQSF alignment at the NWU

- ± 450 Qualifications with
- ± 900 linked academic programmes
- ± 7000 modules
- Time frames for implementation

## Electronic support solution

- Tool to display approved qualification information
- Capture module and programme amendments
- Manage volume of programme and module data for yearbook amendments

## How the tool contributes towards transformation

- Availability of qualification, programme and module information;
- Transparent implementation of HEQSF-alignment decisions;
- Cross-campus consultation, shared responsibility;
- Academic oversight
